- Detailed Security
- Electronic Records Mgmt.
- Dynamic Family Tree

EXTENSIVE INDIVIDUAL AND FAMILY MANAGEMENT

OneTribe Enrollment provides all the features needed by a Tribal Enrollment department. The task management feature allows department tracking for each member request.
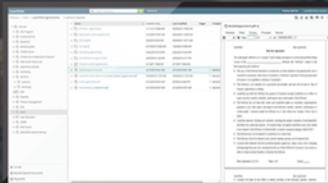

CUSTOM DATA VIEW DASHBOARD

View Key Enrollment data elements on your custom dashboard. Create adhoc reports and list views using the custom data query tool.

DYNAMIC FAMILY TREE VIEWS

Display Family Tree Data in a Dynamic View Display. Expand and reduce different relationship nodes. See both calculated and Recorded blood quantum in a dynamic tree view.

RECORDS MANAGEMENT

Integrated with the powerful Laserfiche Electronic Records management system. Scan, Index, and Organize all Enrollment related documentation and share across enterprise with secure access.

ADDRESS VERIFICATION

Use GIS mapping software ArcGIS to run reports of Members who live within the reservation boundary and verify eligibility for services.

INTERTRIBAL SOFTWARE
ISC
