

OneTribe – Member Portal

The OneTribe Member Portal allows for Tribal Members to access a secure public facing website for application intake and communication with Tribal Services Programs to increase access and efficiency with application approvals and service deliveries.

Every member sets up their Member Profile through a web application. Normally an enrollment department is part of the Portal Account approval process to ensure Members are verified before accessing their Portal Account.

Applications can be created for different tribal programs. Each application can have an open and close dates that can be configured. Each application can have required documents that must be uploaded before the application will submit.

Muckleshoot Scholarship Program
9811 Auburn Enumclaw Road SE
Auburn, WA 98092
253-876-3378 - Fax: 253-876-3082

To navigate through this Application, fill out all required fields, and then hit the Next button. Once you've reached the end of the Application, fill out all required fields, and uploaded all required documents, a Submit button will show up at the bottom of the page. If you cannot complete the Application at one time, hit the Save button at the end of the page and your progress will be saved.

Please verify your contact and mailing information. This is where all future correspondence will occur.

ISC

Member Portal is integrated to OneTribe. As applications come in from the Portal, each department user can send notifications to the Member. The Member receives an email notifying them they have a pending message.

Member Portal has a document management module that allows members to upload electronic documents. Once those documents are uploaded, they are downloaded into Laserfiche for that department and Laserfiche Workflows are initiated.

Departments can post program specific information documentation about eligibility requirements, funding resources and program policies. This provides a private area to communicate this information to members versus the Tribal Website that is viewable for non-members to see.
